|-----|------------|-----------------------|-----------|------|-----------|---------|---|
| 1   | 17/03/2014 | S.S. Woodburn         | 10.9m     | 8c   | Chris     | CH      | Mike/Helen Cover. Viz 0.5m, need to try Luce Bay. Shore shake down dive       |
| 2   | 13/04/2014 | S.S. Woodburn         | 10.3m     | 9c   | Mike      | CH      | Shake down dive on the Woodburn. Viz about 2m. Got a chance to see            |
| 3   |            |                       |           |      | Russ      |         | more of wreck which has been considerably moved around. Lots of               |
| 4   |            |                       |           |      | John      |         | new bits lying around on bottom. Good chance we might find more letters       |
| 5   |            |                       |           |      | Chris     |         | when we get better viz. Weather not too good and big swell off the Isle.      |
| 6   |            |                       |           |      | Helen     |         |   |
| 7   |            | S.S.Craignair / Chile | 5m        | 10c  | Mike      | PB      | Viz still quite bad   |
| 8   |            |                       |           |      | Helen     |         |   |
| 9   |            |                       |           |      | Darren    |         |   |
| 10  |            |                       |           |      | Tosh (V)  |         |   |
| 11  |            |                       |           |      | Mel       |         |   |
| 12  | 31/05/2014 | Chapel Port East IOW  | 10m       | 12c  | Alison    | CH      | Training shore dive while boat engine being fixed. Shake down dive for        |
| 13  |            |                       |           |      | Mel       |         | many. Viz about 4m though kelp still covered with thick layer of silt after   |
| 14  |            |                       | 13.4m     |      | Chris     |         | winter. Quite a few fish around with a shoal of pollack close in              |
| 15  |            |                       |           |      | Debi      |         |   |
| 16  |            |                       | 4m        |      | Phil      |         |   |
| 17  |            |                       |           |      | Elizabeth |         |   |
| 18  |            |                       | 4m        |      | Mike      |         |   |
| 19  |            |                       |           |      | Helen     |         |   |
| 20  | 06/06/2014 | S.S. Woodburn         | 6.5m      | 13c  | Chris     | CH      | Dived from Darren's small rib as our engine still in pieces. Viz was 6m       |
| 21  |            |                       |           |      | Debi      |         | and for the first time I was able to see how the wreck had been rearranged    |
| 22  |            |                       |           |      | Chris     |         | Boiler now totally destroyed, but new items have been uncovered. Did          |
| 23  |            |                       |           |      | Mel       |         | training exercises with Debi and Darren. Both seemed comfortable in           |
| 24  |            |                       |           |      | Darren    |         | the water and are progressing well  |
| 25  | 13/06/2014 | Chapel Port West IOW  | 9.6m      | 13c  | Chris     | CH      | Shore dive in the harbour entrance. Viz quite reasonable at 5m                |
| 26  |            |                       |           |      | Helen     |         | A shoal of 6 big pollock followed Helen and I throughout the dive             |
| 27  |            |                       |           |      | Mike      |         |   |
| 28  |            |                       |           |      | Derek     |         |   |
| 29  | 14/06/2014 | Stinking Port         | 5.2m      | 14c  | Chris     | CH      | Shallow training dives for Debi and Darren.003 Dived from the slipway         |
| 30  |            |                       |           |      | Darren    |         | outside our chalet. A bare sloping seabed down to 4m where the seaweed        |
| 31  |            |                       | 4.8m      |      | John      |         | begins. Kelp covered boulders at 6m and then it drops off with rock walls     |
| 32  |            |                       |           |      | Debi      |         | covered with short animal turf. Quite silty as the tidal stream does not      |
| 33  |            |                       | 11.2m     | 13c  | Chris     |         | flush it out hence Stinking Port no doubt!. 004                               |
| 34  |            |                       |           |      | Darren    |         |   |
| 35  | 15/06/2014 | Stinking Port         | 9.1m      | 14c  | Chris     | CH      | Another training dive from Laigh Isle 005. Happy to now sign Darren off as    |
| 36  |            |                       |           |      | Debi      |         | an Ocean Diver  |
| 37  |            |                       |           |      | Darren    |         |   |
| 38  | 16/06/2014 | S.S. Woodburn         | 10.3m     | 14c  | Chris     | CH      | Boat repairs still in hand so borrowed sailing club rib to pop round to the   |
| 39  |            |                       |           |      | Derek     |         | Woodburn. Viz not too good,3/4m. But a good shake down for Derek              |
| 40  | 18/06/2014 | S.S. Woodburn         | 11.5m     | 14c  | Chris     | CH      | Another trip out to the wreck in the sailing club rib. Quite a lot of fish on |
| 41  |            |                       |           |      | Russ      |         | the site  |
| 42  | 18/06/2014 | Stinking Port         | 4.7m      | 14c  | Mike      | CH      | A shallow dive using wetsuits. It must be getting warmer!                     |
| 43  |            |                       |           |      | Helen     |         |   |
| 44  | 20/06/2014 | S.S.Jasper            | 12.2m     | 14c  | Chris     | CH      | Good calm sea. First chance to try the boat on a longer run. Managed to       |
| 45  |            |                       |           |      | Darren    |         | it up to 5200revs with smooth acceleration which is good. Tried a low         |
| 46  |            |                       |           |      | Mike      |         | water dive on Jasper. Very silty with not much more than tow metre viz.       |
| 47  |            |                       |           |      | Derek     |         | Darren did well. The permanent shot is still attached despite the winter      |
| 48  |            |                       |           |      | Helen     |         | storms.   |
| 49  |            |                       |           |      | Chris     |         |   |
| 50  |            |                       |           |      | Mel       |         |   |
| 51  |            | S.S.Woodburn          | 6.5m      | 14c  | Mel       |         |   |
| 52  |            |                       |           |      | Derek     |         |   |
| 53  |            |                       |           |      | Mike      |         |   |
| 54  |            |                       |           |      | Helen     |         |   |
| 55  |            |                       |           |      | Chris     |         |   |
| 56  |            |                       |           |      | Darren    |         |   |
| 57  | 21/06/2014 | S.S.Riverside         | 21.6m     | 14c  | Phil      | CH      | Sea a bit choppy today but tried the Riverside. Viz similar to Jasper         |
| 58  |            |                       |           |      | Chris     |         | yesterday. All along the port gunwhale were one lobster after another.        |
| 59  |            |                       |           |      | Darren    |         | Most were berried. The plumose anemones were in full bloom because of         |
| 60  |            |                       |           |      | Tosh (V)  |         | the silty water.  |
| 61  |            | S.S.Woodburn          | 5.2m      |      | Phil      |         | Used up gas with a bumble on the Woodburn                                     |
| 62  |            |                       |           |      | Russ      |         |   |
| 63  |            |                       |           |      | Darren    |         |   |
| 64  |            |                       |           |      | Tosh (V)  |         |   |

|-----|------------|--------------------|-----------|--------|-----------|---------|---|
| 65  | 22/06/2014 | S.S.Woodburn       | 6.4m      | 16c    | Mike      | CH      | A shallow training dive and a chance for Steve to get the weighting right       |
| 66  |            |                    |           |        | Helen     |         | for his new kit. Quite warm but this was in shallow water                       |
| 67  |            |                    |           |        | Chris     |         |   |
| 68  |            |                    |           |        | Elizabeth |         |   |
| 69  |            |                    |           |        | Steve     |         |   |
| 70  | 25/06/2014 | Andy's Patch N     | 25m       | 14c    | Russ      | CH      | A bit breezy and drizzling causing a short sea round Burrow Head. At the        |
| 71  |            |                    |           |        | Mike      |         | patch the sea was running fast to the north 1/2hr.after HW. First group had     |
| 72  |            |                    |           |        | Don       |         | fast drift but didn't find scallops. Lots of sea life and clear water viz 4/5m. |
| 73  |            |                    | 22.5m     |        | Chris     |         | Lots of dead razor clam shells on seabed. Slack started 2hrs 10mins after       |
| 74  |            |                    |           |        | Derek     |         | HW. Big seas on the way back and just managed to unload on steps                |
| 75  | 28/06/2014 | Rock of Providence | 18.7m     | 15c    | Chris     | CH      | Scenic dive in Luce Bay. Viz 5/6m Dived at HW with current dropping off.        |
| 76  |            |                    |           |        | Debi      |         | Between the shallower reef 11m and the deeper one at 18m quite a sandy          |
| 77  |            |                    |           |        | Alison    |         | slope has now built up with little life on it. At 18m the rough ground with     |
| 78  |            |                    |           |        | John      |         | short animal turf merits close inspection. Quite a few small lobsters           |
| 79  |            |                    |           |        | Phil      |         | around.   |
| 80  |            |                    |           |        | Helen     |         |   |
| 81  | 29/06/2014 | Devils Bridge      | 14m       | 15c    | Mel       | CH      | Got out to Devil's Bridge but were delayed getting in. Viz was about 4m         |
| 82  |            |                    |           |        | Callum    |         | but not fantastic for this site. By the end of dive the current was running     |
| 83  |            |                    | 9.9m      |        | Chris     |         | like a river either side of the bridge.   |
| 84  |            |                    |           |        | Elizabeth |         |   |
| 85  |            | S.S.Woodburn       | 10m       |        | Chris     |         | Glyn's first open water dive. After initial nervousness he settled down well    |
| 86  |            |                    |           |        | Glyn      |         | and thoroughly enjoyed the dive. His bouyancy was good for a first dive         |
| 87  |            |                    | 14m       |        | Callum    |         | and we managed to incorporate a number of skills. Using the anchor line         |
| 88  |            |                    |           |        | Derek     |         | as a shot enabled slow descent and practice deco stop on ascent                 |
| 89  | 04/07/2014 | S.S.Rondo          | 28m       | 12c    | Callum    | PB      | First rainy and miserable day in ages. Crossing the Firth of Lorne was a        |
| 90  |            |                    |           |        | Mel       |         | bit rough and wet but as soon as we entered the Sound of Mull it calmed         |
| 91  |            |                    |           |        | John      |         | down. Rondo was a good first dive as we had inexperienced divers with us.       |
| 92  |            |                    | 27m       |        | Mike      |         | Buddy order got mixed up when Bert got a free flow but he soon got it           |
| 93  |            |                    |           |        | Alison    |         | fixed and went down as a three. Viz on the wreck was good for us at about       |
| 94  |            |                    | 21m       |        | Bert      |         | 6/7m. Wreck still covered by a vast range of animal turf.                       |
| 95  |            |                    |           |        | Phil      |         | Gassed off in Tobermoray which was good and when we were there the              |
| 96  |            |                    |           |        | Helen     |         | sun broke out which lightened our hearts ready for the dive on the Hispania     |
| 97  |            |                    | 21m       |        | Chris     |         |   |
| 98  |            |                    |           |        | Debi      |         |   |
| 99  |            | S.S.Hispania       | 28m       | 12c    | Bert      |         | Had too wait quite a while for the slack window to appear and when we hit       |
| 100 |            |                    |           |        | John      |         | it was still running. Got down to the wreck which was as beautiful as ever      |
| 101 |            |                    | 26m       |        | Callum    |         | and tucked ourselves in. This was good experience for the divers who had        |
| 102 |            |                    |           |        | Mel       |         | never dived a big wreck before and they were all blown away by visibility       |
| 103 |            |                    | 26m       |        | Alison    |         | and profusion of life on the wreck. We were lucky to have it all to ourselves   |
| 104 |            |                    |           |        | Mike      |         | The weather now turned into a beautiful afternoon / evening and we all          |
| 105 |            |                    | 20.4m     |        | Phil      |         | lazed on the front of the boat enjoying the scenery and detouring to view       |
| 106 |            |                    |           |        | Chris     |         | the seals   |
| 107 |            |                    |           |        | Debi      |         |   |
| 108 | 05/07/2014 | S.S.Thesis         | 34.8m     | 11/12c | Bert      | PB      | Much better weather today for the early start to get to the Thesis. The         |
| 109 |            |                    |           |        | John      |         | wreck was enjoyed by those who had never dived it before and gave them          |
| 110 |            |                    | 34m       |        | Callum    |         | the opportunity to extend their depth range to the 35m mark Viz was good        |
| 111 |            |                    |           |        | Mel       |         | on the wreck at around 6/7m   |
| 112 |            |                    | 33.2m     |        | Alison    |         |   |
| 113 |            |                    |           |        | Mike      |         |   |
| 114 |            |                    | 20m       |        | Phil      |         |   |
| 115 |            |                    |           |        | Chris     |         |   |
| 116 |            |                    |           |        | Debi      |         |   |
| 117 |            | S.S.Shuna          | 34m       | 12c    | Bert      |         | Still quite a run on the wreck when we entered the water. Viz around 6m         |
| 118 |            |                    |           |        | John      |         | On the way back from the wreck David took us to see the sea eagles nest.        |
| 119 |            |                    | 27.7m     |        | Chris     |         | Got an excellent view of the bird and it's chick                                |
| 120 |            |                    |           |        | Helen     |         |   |
| 121 |            |                    | 34m       |        | Callum    |         |   |
| 122 |            |                    |           |        | Mel       |         |   |

| NO. | DATE       | SITE                 | MAX DEPTH | TEMP   | DIVERS     | D/M Cox | NOTES   |
|-----|------------|----------------------|-----------|--------|------------|---------|---|
| 123 | 05/07/2014 | S.S.Shuna            | 32.2m     |        | Alison     |         |   |
| 124 |            |                      |           |        | Mike       |         |   |
| 125 |            |                      | 21m       |        | Phil       |         |   |
| 126 |            |                      |           |        | Debi       |         |   |
| 127 |            | S.S.Breda            | 22m       | 12/13c | Bert       |         | Not everybody did this dive. Had the wreck to ourselves and consequently  |
| 128 |            |                      |           |        | John       |         | viz was good.   |
| 129 |            |                      | 17.8m     |        | Chris      |         |   |
| 130 |            |                      |           |        | Debi       |         |   |
| 131 |            |                      | 22m       |        | Callum     |         |   |
| 132 |            |                      |           |        | Mel        |         |   |
| 133 | 05/07/2014 | Cairn Head           | 13.2m     | 15c    | Darren     | TMG     | Darren and Tosh dived from their boat. Found a few goodies for supper     |
| 134 |            |                      |           |        | Tosh (V)   |         |   |
| 135 | 13/07/2014 | Cairn Head           | 19.8m     | 15c    | Chris      | CH      | Strong NW wind but Cairn Head quite sheltered. Tried to get some video    |
| 136 |            |                      |           |        | Phil       |         | footage but viz not much more than 3m. Nice relaxing dive but current     |
| 137 |            |                      | 15m       |        | Phil       |         | picked up towards end of dive. When second pair went in they drifted to   |
| 138 |            |                      |           |        | Russ       |         | Stein Point before pick up  |
| 139 | 17/07/2014 | Devils Bridge        | 10.4m     | 16c    | Gary (V)   | CH      | Went out with two members from Scarborough Branch. Hit Devil's Bridge     |
| 140 |            |                      |           |        | Darren (V) |         | really early and found there was a gentle back current which flowed from  |
| 141 |            |                      |           |        | Chris      |         | the mooring spot under the bridges, down the canyon and round to the      |
| 142 |            |                      |           |        | Mike       |         | left taking you to the other side of the outcrop. We thus did a complete  |
| 143 |            |                      |           |        | Helen      |         | circuit before going back and weaving through the canyons                 |
| 144 |            | S.S.Woodburn         | 11.5m     | 16c    | Chris      |         | Showed Gary round the site and hunted out small critters as he was a      |
| 145 |            |                      |           |        | Gary (V)   |         | seasearch diver. Darren had a bad flood on the first dive and couldn't    |
| 146 |            |                      |           |        | Mike       |         | do the Woodburn   |
| 147 |            |                      |           |        | Derek      |         |   |
| 148 | 19/07/2014 | Great Ouse           | 24.4m     | 16c    | Chris      | CH      | A miserable rainy day but quite calm out in Luce Bay so we speeded out    |
| 149 |            |                      |           |        | Derek      |         | to the Ouse. Went in 75mins before LW when just coming on to slack.       |
| 150 |            |                      |           |        | Mel        |         | Shotted it on the bucket chain. Lovely dive though viz only about 5m      |
| 151 |            |                      |           |        | Tosh (V)   |         | Lots of big fish on wreck and we managed to get a couple of good sized    |
| 152 |            |                      |           |        | Darren     |         | lobsters, leaving a monster one behind to patrol the wreck. Darren had    |
| 153 |            | S.S.Woodburn         | 7.7m      |        | Chris      |         | weighting problems which marred his dive. Couldn't retrieve shot          |
| 154 |            |                      |           |        | Debi       |         | Afterwards did training exercises with Debi on the Woodburn. Came up      |
| 155 |            |                      |           |        | Tosh (V)   |         | and the heavens opened, rinsing all our kit off. Road run off was making  |
| 156 |            |                      |           |        | Darren     |         | waterfalls through the drainage holes into the harbour. Willy Lee and     |
| 157 |            |                      |           |        | Derek      |         | his club from Ayr were down with their rib diving the Inkosi              |
| 158 | 23/07/2014 | Taylor's Gat >SE     | 18m       | 17c    | Derek      | CH      | Dived 1/2hr after HW with a gently increasing current to the SE. Viz only |
| 159 |            |                      |           |        | Alison     |         | about 4/5m. Saw a ling just sitting out in the open which is rare. Plenty |
| 160 |            | Slockenglass > Stank | 17.2m     |        | Chris      |         | of wrasse and pollock around. Animal turf was changing as we drifted      |
| 161 |            |                      |           |        | Russ       |         | through different patches of ground. Water now 17c                        |
| 162 | 30/07/2014 | Cairn Head           | 14.3m     | 17c    | Darren     | TMG     |   |
| 163 |            |                      |           |        | Tosh (V)   |         |   |
| 164 |            |                      |           |        | Derek      |         |   |
| 165 | 07/08/2014 | Stein Point          | 9.2m      | 17c    | Darren     | MA      |   |
| 166 |            |                      |           |        | Mike       |         |   |
| 167 |            |                      |           |        | Helen      |         |   |
| 168 | 23/08/2014 | Cairn Head           | 15.2m     | 16c    | Chris      | MS      | Glyn's second open water dive. Did a gentle drift around the pinnacles    |
| 169 |            |                      |           |        | Glyn       |         | at Cairn Head. Managed to get a good sized crab bare handed. Mel          |
| 170 |            |                      | 9.3m      |        | Mel        |         | supervized Debi's rescue exercise which means that I can now sign her     |
| 171 |            |                      |           |        | Debi       |         | off as a Sports diver. Viz on site quite good at around 4/5m              |
| 172 |            |                      | 14.4m     |        | Chris      |         |   |
| 173 |            |                      |           |        | Darren     |         |   |
| 174 | 24/08/2014 | S.S.Woodburn         | 10.6m     | 16c    | Chris      | CH      | Got some video footage of the wreck. Elizabeth improved her bouyancy      |
| 175 |            |                      |           |        | Elizabeth  |         | and had a good dive. Took Darren round the outside of the site and came   |
| 176 |            |                      | 13.8m     |        | Chris      |         | back straight into the cave entrance. Viz a good 5m and 6m inside cave    |
| 177 |            |                      |           |        | Darren     |         |   |
| 178 | 31/08/2014 | S.S.Jasper           | 17.7m     | 16c    | Chris      | MS      | Sil;ty and murky. Viz 1.5m good experience for Elizabeth who did well     |
| 179 |            |                      |           |        | Elizabeth  |         | Had to shot wreck and got it bang on the fixed shot. Added extra to fixed |
| 180 |            |                      | 20m       |        | Mel        |         | shot so visible at HW. Good experience dive for Glyn                      |
| 181 |            |                      |           |        | Glyn       |         |   |

| NO. | DATE       | SITE                  | MAX DEPTH | TEMP | DIVERS     | D/M Cox | NOTES  |

| 182 | 03/09/2014 | Great Ouse            | 25.2m     | 16c  | Chris      | CH      | Choppier than expected but reached wreck in good time. Lost shot just        |
| 183 |            |                       |           |      | Derek      |         | visible below surface so reshotted wreck. Viz 5-6m and as usual lots of      |
| 184 |            |                       |           |      | John       |         | big fish. Shoals of bib and pollock and a few big congers. Saw the huge      |
| 185 |            |                       |           |      | Mel        |         | lobster under a plate. Excellent dive and managed to recover lost shot       |
| 186 |            |                       |           |      | Russ       |         | which was firmly wedged in he wreck. John just managed to get it free        |
| 187 |            | S.S.Woodburn          | 8.6m      | 16c  | Russ       |         | Finished off the gas on the Woodburn while we waited for the tide to rise.   |
| 188 |            |                       |           |      | John       |         | Quite a chop here and the viz was poor                                       |
| 189 |            |                       |           |      | Chris      |         |  |
| 190 |            |                       |           |      | Derek      |         |  |
| 191 | 06/09/2014 | S.S.Riverside         | 26.3m     | 16c  | Chris      | CH      | Got off to a swift start on a beautiful fresh morning arriving at the wreck  |
| 192 |            |                       |           |      | John       |         | to find that the permanent bouy had vanished. Shotted the wreck near the     |
| 193 |            |                       |           |      | Russ       |         | stern but had to line off to find the wreck. Dark and viz not much more      |
| 194 |            |                       |           |      | Callum     |         | than a metre. Led John round the wreck and saw lights in the gloom from      |
| 195 |            |                       |           |      | Tosh (V)   |         | the others. Used up most of my air needlessly getting shot to wreck          |
| 196 |            | S.S.Woodburn          | 10.2m     |      | Russ       |         | Nice relaxed dive on Woodburn. Darren found some treasure. Elizabeth         |
| 197 |            |                       |           |      | Darren     |         | and Callum went round edge of site.  |
| 198 |            |                       | 12m       |      | Callum     |         |  |
| 199 |            |                       |           |      | Elizabeth  |         |  |
| 200 | 19/09/2014 | S.S.Kelvinside        | 24.2m     | 16c  | Chris      | CH      | Derek cox. Ideal conditions if overcast. Shotted wreck perfectly 2m from     |
| 201 |            |                       |           |      | Mel        |         | port side. Viz 7/8m. Lots of big fish, pollock, bib and a huge conger under  |
| 202 |            |                       |           |      | Russ       |         | the boiler. Saw a heap of piled up copper and remembered Darren.             |
| 203 | 20/09/2014 | Slockenglass          | 17m       | 16c  | Darren     | CH      | Viz not too good despite calm conditions. Did not expect to get out today    |
| 204 |            |                       |           |      | Tosh (V)   |         | but wind changed overnight and sea was calm. Decided to take Glyn's son      |
| 205 |            |                       |           |      | Mel        |         | Mattie on the Chile as it was his first dive. Here the viz was better        |
| 206 |            |                       |           |      | Glyn       |         | and we all had a bibble. Toured all the main bits of wreckage and found      |
| 207 |            | S.S.Craignair / Chile | 4m        |      | Chris      |         | the remains of the teak decking from the Chile round the hatch coaming.      |
| 208 |            |                       |           |      | Mattie (V) |         |  |
| 209 |            |                       |           |      | Darren     |         |  |
| 210 |            |                       |           |      | Tosh (V)   |         |  |
| 211 |            |                       |           |      | Mel        |         |  |
| 212 |            |                       |           |      | Glyn       |         |  |
| 213 | 21/09/2014 | Andy's Patch S > N    | 20.4m     | 16c  | Chris      | CH      | Full boat today. A little too late to get slack on the wrecks so went for    |
| 214 |            |                       |           |      | Glyn       |         | a scallop dive. Nice calm sea and hit the patch bang on slack 40 mins        |
| 215 |            |                       |           |      | Mel        |         | before HW on a 7m tide. Began to pick up about 30mins before HW              |
| 216 |            |                       |           |      | Russ       |         | giving us a nice gentle drift to N. Scallops well dug in and only found 10   |
| 217 |            |                       |           |      | Tosh (V)   |         | decent ones between us   |
| 218 |            | S.S.Woodburn          | 11.3m     |      | Chris      |         | Took Mattie for his second dive on the Woodburn. Having sorted his           |
| 219 |            |                       |           |      | Mattie (V) |         | weighting on the previous day his bouyancy was good. Took him for a tour     |
| 220 |            |                       |           |      | Mel        |         | of the wreck, cave and scenic canyons as the central area was soon           |
| 221 |            |                       |           |      | Darren     |         | stirred up   |
| 222 |            |                       |           |      | Tosh (V)   |         |  |
| 223 | 27/09/2014 | MFV Valhalla          | 38.5m     | 16c  | Chris      | CH      | Darren cox. Dived at HW which limited time on the wreck. Dark but clear.     |
| 224 |            |                       |           |      | Phil       |         | Found ships wheel with what looked like telegraph alongside it. Some of      |
| 225 |            |                       |           |      | Tosh (V)   |         | ribs are fragile and one snapped off and hit sea bed when touched            |
| 226 |            | Cruggleton Castle     | 13.5m     |      | Chris      |         | Found a good mark under Cruggleton Castle. Thought it might be Boy           |
| 227 |            |                       |           |      | Darren     |         | Anthony but proved to be a big rock. Quite silty but interesting small       |
| 228 |            |                       |           |      | Tosh (V)   |         | critters like lobsters and sea squirts                                       |
| 229 | 28/09/2014 | S.S.Jasper            | 18m       | 16c  | Chris      | CH      | Though a small spring tide slack on the wreck began about 1hr 15mins         |
| 230 |            |                       |           |      | Debi       |         | before HW and lasted up to about 15mins past. Viz not bad at about           |
| 231 |            |                       |           |      | Darren     |         | 3.5 / 4m. Some big pollock on the wreck and a conger in the side engine      |
| 232 |            |                       |           |      | Tosh (V)   |         | hole. Also some big lobsters in the box in front of the engine. A nice       |
| 233 |            |                       |           |      | Derek      |         | relaxing dive having the permanent shot on the wreck. A good supply of       |
| 234 |            |                       |           |      | Callum     |         | big mussels on the line at the 6m level                                      |
| 235 | 11/10/2014 | Andy's Patch          | 26.6m     | 15c  | Phil       | CH      | Beautiful day and sped out to site on a flat calm sea. But viz awful after   |
| 236 |            |                       |           |      | Mel        |         | storms in past week. Night dive conditions on bottom, but lots of fish life. |
| 237 |            |                       |           |      | Chris      |         | Current picked up for second pair because one of biggest tides of year       |
| 238 |            |                       |           |      | Mike       |         | A real roller coaster ride with only the back up torch working! Great fun!   |
| 239 |            |                       |           |      |            |         |  |
| 240 |            |                       |           |      |            |         |  |
| 241 |            |                       |           |      |            |         |  |
| 242 |            |                       |           |      |            |         |  |
