NO.	DATE	SITE	DEPT H		DIVERS	D/M	NOTES	T
1		Garlieston beach	2.6m	7c	Callum	_	Shake down dive from beach at Garlieston. As part of running engine in I went up to act as boat cover.	COX
2	10/00/2021	Cambolon bodon	2.0		Ken	011	Viz virtually nil but a good potential first dive site for beginners as access easy and sandy bottom	
3	21/03/2021	Harry's pots		7c	Chris	СН	Went to look for a string of 70 Buckie pots snagged on wreckage. First boat dive of year and despite some	RL
5					Glyn Callum		settled weather viz was barely a meter on bottom and less when we started work on the pots. Need to return when viz better and systematically recover them. All in big tangled groups on seabed	+
6		S.S.Woodburn			Glyn		Storms had really moved wreck around. I barely recognised anything. Found a nice brass flange but lots more	
7					Callum		on bottom. Everything covered in a thick layer of fine silt. Felt very cold!	<del>                                     </del>
8 9		Capernwray	17m	6c	Chris Glyn	GM		+
10	25/05/2021	Оарстичау	17111	- 00	Sandy	Civi		T
11					Annette			1
12			17m		Glyn Sandy			+
14					Annette			
15	02/04/1900	Cairn Head	16.9m	7c	Chris	СН	Weather nice and sea calm but viz barely a metre. Barry just checked his kit out on boat line but Duncan and	RL
16 17					Duncan Barry		I pressed on and found better viz in deeper water. Not a lot of life around yet and no sign of scallops	+
18	10/04/2021	Capernwray	17m	7c	Glyn	GM	Seemed qiute busy but from photos water looked clear	
19					Sandy			1
20			7m		Annette Ian			+
22			17.1m		Glyn			
23					Sandy			4
24 25					Annette Ian			+
26	13/04/2021	Cairn Head	15.4m	8c	Chris	СН	A quick last minute dive to check out water. Viz about 3.5m in deeper water. Again not a lot of movement	RL
27					Lu		as creatures hunkered down in cold water. Lu got some good photos. Felt cold when we got out.	1
28 29	17/04/2021	Capernwray	11.6m	8c	Sandy Annette	SB		+
30					Claire(V)			1
31			7.6m	9с	Sandy			
32					Annette Claire(V)			<del> </del>
33	22/04/2021	Port Yerrock	9.6m		Chris	СН	Water still murky but found a sheltered spot. Got a few scallops and found a patch of sea pens that I had never	RL
35					Ken		seen before. Also saw tiny octopus. Tried to find John's snagged pot at the wrong Half Tide Rock!	
36	23/04/2021	Slockenglass	15m	9c	lan	СН	Found slack right on HW. Viz improved but sea life styill dormant. Susie did well after such a long gap out of	$\vdash$
37 38					Lu Chris		Water still murky but found a sheltered spot. Got a few scallops and found a patch of sea pens that I had never	+
39					Susie			
40	24/04/2021	Slockenglass	17.8m	9c	Chris	СН	Again dived at same area. Duncan posted some good video footage	AP
41					Duncan Kacie			+
43	25/04/2021	Stank	16.2m	9с	Lu	СН	Yet again in same area because of wind. Took out Glenys who now wants to join the club.	СН
44					Mel			$\bot$
45 46					Chris Glenys			+
47	30/04/2021	Stank	19.7m	9с	Chris	СН	Big tides meant that the viz was not as good as it has been. Despite being early only had a gentle drift up to	RL
48					Lu		Slockenglass.	
49 50	01/05/2021	Cairn Head (boat 1)	16m	9с	Annette Duncan	СН	I skippered one boat and lain took his out. Did shake down dives for Caroline and Ciara while the others	СН
51	01/03/2021	Odim ricad (boat 1)	10111	30	Mel	OII	ventured further out. Viz not brilliant	IB
52					Paul			
53 54		(boat 2)	10m		Glyn Caroline	-		+
55			7m		Sandy			+
56					Ciara			1
57 58	02/05/2021	Devill's Bridge outer reef	16m	9c	Tosh lan	СН	Hit the site right on slack and everybody had a good dive with decent viz. Tosh did well to navigate right back to boat. Annette and Glyn saw our second octopus of the year, a full sized one this time	СН
59					Sandy		boat. Familiate and Orym saw our second octopus of the year, a familiated one this time	
60					Paul			
61 62			1	-	Glyn Annette		A very relaxing dive but we both felt cold. Got a few scallops but not many around at our usual site. Did notice that sand had built up in areas and this might have influenced thing. Hope field run off has not killed them off	┿
63		Cairn Head	17.4m		Chris		again since there were quite a few dead joined shells around	工
64					Tosh			口
65 66		Dinnans	5m		Glyn Paul		Glyn and Paul recovered John's snagged pot at the correct Half Tide Rock this time!	+
67	17/05/2021	SMS Dresden, Scapa	34.5m	32min		LDL	On all dives in Scapa, water temperature hovered between 8c and 9c. Hence dive times now in temp column.	工
68					Duncan	31%		$\bot$
69 70			34.8m	27min	Sandy Annette		Weather good and a calm sea for our first dive. After a good detailed briefing by Emily pointing out paticular things to look for we all dropped on the deeper stern of the vessel and saw the kedge anchor in it's	+
71			33.1m	43min	Mel		mounting. Moving forward we examined the rear 5.9in guns an then went into the officers quarters to see the	
72			0.5	0.5	Lu		bath amongst the wreckage. Just past the salvage damage in the boiler room area lies a huge davit for the	┰┚
73 74			36.6m	30min	Chris Tosh	$\vdash$	steam launch whose small boiler Glyn identified. The deck here and forward is peeling away but the armoured bridge with it's eyebrow slots can be seen. A good intro dive to Sacpa but the briefings are what made the dive	+
75		SMS Karlsruhe, Scapa	25.1m	38min		35%	understandable	
76					Duncan	lacksquare	similar	$\Box$
77 78			26m	30min	Sandy Annette	$\vdash$	Shallower than the two other cruisers the Karlsruhe was well broken up. We descended midships and explored bress controll bridge and saw the forward 5.9in guns which instead of being side by side are now on the sea	+
79			25.5m	37min	Mel		bed. Forward the anchor winches are fully exposed along with their mechanisms. Behind the bridge the holes	
80			0.5	0=	Lu		where the funnels were can be peered into showing the gratings	┰┚
81 82			26.6m	37min	Chris Tosh			+
83	18/05/2021	SMS Coln, Scapa	31.1m	27min	Mel	LDL	Descended to mid section on wreck lying on it's stbd side with deck perfectly vertical. Examined armoured bridge	士
84		<u> </u>			Lu		and tried to find centre 5.9in gun hiding in tangle behind bridge. Moved forward to see gun mounts, long since	$oldsymbol{oldsymbol{\Box}}$
85 86			33.6m	36min	Chris Tosh		salvaged and anchor capstans. Holes in deck enabled us to see capstan mechanisms and chain locker. Just outside capstans were triangular machine gun mounts. At the bow was the shield and the impressed anchor	+-
86			30.9m	27min		L	outside capstans were triangular machine gun mounts. At the bow was the shield and the impressed anchor recess. Ascended following the edge of the gunnel to the pair of pinnace davits where the shot was attached.	<del>1 -</del>
88					Annette		Sandy and Duncan lost their bearings and set off aft to examine the stern	
89			32.6m	37min	Sandy	-		+-
90 91		SMS Konig, Scapa	30m	29min	Duncan Mel	30%	Dropped down the shot to look in the salvage hole revealing the turbine remains and the loading hatch at the	+
92		W Tarket			Lu		bottom of D turret. Just aft was the 14in thick remains of the armoured citadel bulkhead. Forward and over the	1
93 94			29.8m	31min			side were the ribs, revealed now that the armoured belt had been salvaged. Tosh had to abort the dive because of a split HP hose and Lu's suit hose became detached wih meant we stirred up the silt as we tried to	+-
95			∠9.8IN	J41IIII	Sandy Duncan		re-attach it.	+
96			28m	28min	Glyn			
97					Annette

DATE	CITE	DEPT	TEMP	DIVERS	D.04	NOTES	
NO. DATE	SITE	Н			_	NOTES	СОХ
98 19/05/2021 99	SMS Kronprinz Wilhelm	35.2m	30min	Glyn Duncan		Joined on trip by film crew who took footage of us kitting up and entering water. Duncan did the underwater footage for them and so was in the first pair so as to get best viz. We all dived to the stern and went under the	+
100		35.1m	20min	Sandy	30%	overhang to see the huge D and E 12 inch rear guns. Viz was a good 10m. The E turret guns necessitated a	+
101		00	20111111	Annette		dive into the void under the stern. The first four then went to the stern to see the rudders before working their	1
102		35.7m	36min	Chris		way up the hull looking in the salvage holes at what was left of the turbines. Second four saw the guns and	1
103				Tosh		then went forward to the mast and viewing top where the viz was a good 15m enabling the whole structure	
104		34.9m	29min	Lu		to be seen. They then went back along the ship to view the rudders from above before turning to follow the	
105		<b>_</b>		Mel		along the seabed like expanse of the upturned hull.	4
106	SMS Coln, Scapa	33.8m	26min	Duncan	30%	Some went sightseeing but 3 dived the Coln again to do the forward section which they missed out on the first time we dived the wreck.	+
108				Annette		unie we dived the wieck.	+
	SMS Markgraf, Scapa	40.2m	32min		СН	The deepest of the German wrecks, we all dropped to the stern to see the rudders and Chris went to the sea	+
110	, , , , , , , , , , , , , , , , , , , ,	36.6m		Tosh		bed to look at the port holes. We then swam up along the hull looking into the salvage holes to see the enormous	
111		35.8m	23min	Mel		propshafts. This took us to the anchor chain which had wrapped round the hull as she sank and where the	
112				Lu		shot line up was attached. Chasing deco Chris and Tosh swam forward and down to the the bow section	4
113		34.8m	33min	Duncan		before being forced to return to the shot. Again good 10m vizon the wreck	+
114	F2 and Barge, Scapa	16.3m	39min	Glyn Chris	36%	A shallower second dive on the WW2 destroyer just off Lyness. Viz a good 12m here. Descended to the barge	+
116	1 2 and Barge, Ocapa	10.0111	Joinni	Tosh	3070	to look at the workshop inside and the anti aircraft guns in the hold. Then followed rope across seabed to the F2	+-
117		16.1m	36min	Mel		More fish around here with Cuckoo and Ballan wrasse as well as a Ling. Examined bow and bow gun as well	
118				Lu		as bridge before swimming over a tangled mass to the stern. Passed one separated generator on way to stern	
119		15.8m	39min	Duncan		and another off the stbd. side. Followed the rope back to the barge and the shotline	
120				Glyn	l		+
121 21/05/2021	SMS Brummer, Scapa	33.5m	33min	Chris		Sea rougher today with a NW creating a swell in the flow. (Would have been worse outside) Descended to	+
122		31.8m	25min	Duncan	30%	bow to see bow gun and armoured bridge with brass railings under the peeled off deck. Moved to searchlight iris on remains of observation top then ascended past centre gun to see mine trolley rails. Crossed over wreck	+
124		01.0111	20111111	Annette		and returned along seabed on port side to see paravane attachment at bow. Good 12m viz.	+
125	SS Tabarka, Scapa	14m	52min	Chris	25%	Tried to drop like stones to wreck in strong current. Set off in wrong direction around outside but finally came to	1
126				Duncan	24%	cente break and went inside over boilers to the calm cavernous interior. Annette did well on what was her first	
127		13.2m	40min	Glyn	26%	wreck penetration. Crabbed across gap with strong current to even more cavernous front section. All surfaces	
128				Annette		covered with anemones and cup corals and even saw small nudibranch. Hid in interior waiting for tide to turn.	+
129 26/05/2021 130	Cairn Head	19.9m	10c	Chris Lu	СН	Didn't expect much after wind and rain but nice dive with 3.5m viz. Strong current so sheltered in gullies.  Fish life a bit more active now. Ken practised boat handling with Richard while we dived	RL
	Cairn Head	18m	11c	Callum	СП	Took out lain's boat, 3B marine to give the engines a turn over. Perfect flat calm conditions for a scenic dive	RL
132	Califficac	10111	110	lan	CII	at Cairn Head. Viz was a little better that a few days ago and we hit the site on time so that there was not	IXL
133		22.5m		Tosh		too much of a current despite the big spring tides.	
134				Lu			
135		19m		Sandy			<u> </u>
136				Annette	<u> </u>		4
137	S.S.Woodburn	11m		Mel	-	Went back out for a dive on the Woodburn so that Alfie could get a deepish proper dive. He did well and his	+
138				Alfie Ian		buoyancy was good. This was the first real dive of the year on the wreck and once again the winter storms have re-arranged it leaving various new bits exposed while burying familiar bits.	+-
140				Tosh		nave re-arranged it reaving various new bits exposed write burying farmiliar bits.	+-
141				Lu			1
142				Sandy			
143				Annette			Д_
144 30/05/2021	S.S.Jasper	16.4m	11c	Chris	CH	Got the boat off early but by the meet time it was high and dry so had to replan. 3hrs after LW shotted wreck	RL
145		1		Russ		with strongish but diveable current running to the N that was dying off during dive. Viz barely 3m. The swim through in the middle section is even more silted up now. Good festoons of mussels on the lines and a lot of	+
147	S.S.Woodburn	10.7m		Chris	<u> </u>	rope and pots on wreck. Returned to Woodburn and recovered a huge log, and then recovered some of ropes	+-
148	C.C.TTCCGDGIII	10.7111		Russ		on Barnes Rocks. Good exploration of the site but need to do another picture!	1
149 31/05/2021	Devil's Bridge	10m	12c	Mel	CH	V early start to avoid yesterday's problem but the flat calm and good viz of the day before had been ruined by	RL
150				Lu		a mild SE wind causing an increasingly choppy sea. To pairs got in the water at Devil's Bridge but had to cut	
151		5m		Chris		short the dives due to lack of viz and sea surge. Karen bravely tried snorkelling too at what should have been	₩
152	D 17 1 D 11	+ -	40	Chris W	_	a good site. Since we couldn't get back to harbour to moor we went to the only shelter in Port Yerrock Bay	-
153 154	Port Yerrock Beetle	5m	12c	Glyn Annette	<del>                                     </del>	Here was flat calm and what we have always discounted as a silty dive site provided some good dives. The shallowish water had not been stirred up and it seemed to be a an area for juvenile fish. Lots of tiny plaice,	+
155		11.9m		Chris		lobsters and masses of various anemones were seem and I managed to collect some scallops on this last day	+
156				Chris W		of the season. This is a good site when a SE blows and needs more exploration	1
157 05/06/2021	S.S.Jasper	14m	12c	Glyn	GM	Glyn managed dive to Jasper. Viz about 2m. Shot still on wreck and congers at home	СН
158				Paul			匚
159		1	<u> </u>	Margaret(V)	<u> </u>		₩
160		<del>                                     </del>	<del>                                     </del>	Sandy	<u> </u>		+
161 162 06/06/2021	Slockenglass	17m	12c	Caroline Glyn	GN4	Gentle drift in Luce Bay	СН
163	Old Cherry (d SS	17111	120	Russ	JIVI	Consideration Laure Day	Ur1
164		<u> </u>	1	Margaret(V)	1		T
	Cairn Head	21.9m	13c	Chris	GM	Nice scenic dive to Cairn Head. Glyn and I went deep and found good scallop bed. Good to know that they are	RL
166				Glyn		still there as we have seen few on previous dives. Viz a good 6m which was surprising. Duncan and Margaret	
167		16m		Duncan		stayed shallower and saw small Skate and good sized crabs and lobsters. Photos on Facebook.	4二
168		1	<u> </u>	Margaret(V)	<u> </u>	went to Woodburn for Glyn to practise lift but shackle on bag broke! I brought up some lead to turn into weights.	4
169	S.S.Woodburn	10.4m	<del>                                     </del>	Chris	<del>                                     </del>	Duncan climbed rocks and recovered the rope that was draped over the Barnes, which will make good shot	+-
170 171 18/06/2021	S S Woodhum	10.5m	10-	Glyn	СН	Shake down dive for Elizabeth and Derek. All went well. Lu and I explored the outer reefs and were pleased to have	СН
171 18/06/2021 172	S.S.Woodburn	10.5M	13c	Elizabeth Derek	CH	Shake down dive for Elizabeth and Derek. All went well. Lu and I explored the outer reets and were pleased to have viz of about 10m. Lots of big fish around	CH
173		14.9m	<del>                                     </del>	Chris		viz or about 10m. Edis of big fish affullu	+
174		14.311	l	Lu			+
175 19/06/2021	ADC 527	34.8m	13c	Chris	СН	Decided to give the landing craft a go as we did not get on it last year. Mid range tides meant that there was quite a	AP
176				Kacie		run at 1hr before LW and for fear of pulling shot off I went down first to secure it followed by the others. Looked for	İ
177				Callum		Andy's pots and saw lots of rope but need to be down on Nitrox 30 to have more time to look. Viz a good 8m but	
178				Duncan		a lot of fleck in water. Plenty of big fish but back end and prop shafts have collapsed and holes opened in middle.	厂
179	Port Yerrock	14.9m	14c	Chris	<u> </u>	Duncan got good video footage. Escaped just as wind picked up and went to sheltered Port Yerrock. Good second	┯
180		l		Kacie	<u> </u>	dive in clear water. Lots of small creatures and Kacie and I found two anchors and a mooring slab probably from	₩
181 182		12m	<b>-</b>	Callum Duncan	<u> </u>	Mulberry works in WW2. Good patches of scallops in this area but it is silty. Duncan also got a good sighting and photo of a Sea lemon nudibranch.	+
				LLHINCAN		toporo or a sea remon pridiptanch	

NSSAC	DIVING OFFICER'S LOG	OF DIV	ES			2021	1
		DEPT					Τ
NO. DATE	SITE	Н	_	DIVERS	D/M	NOTES	CC
	S.S.Shuna, Mull	30.3m	11c	Duncan	CH	A little choppy crossing the Frth of Lorne but as soon as we entered the Sound the skys cleared and the sea was	4
184				Lu	_	flat calm. Sea a bit chillier here hovering between 11c and 12c. Nice to get back on the Shuna and viz was quite	4
185				Chris		reasonable at about 5 or 6m. Chris and I swam through bridge which is still standing and went down to have a look	+-
186				Chris W		in the crew quarters in the bow. Then we dropped over the bow which is covered in Yellow Lipped Sea Squirts	+-
187				Sandy	<u> </u>	and Peacock worms to sea bed to look back at wreck towering above us. Then swan up onto the deck and to the	+-
188				Annette		stern, looking in the holds as we went. Dropped over stern to see the large prop and rudder before coming back to	+-
189				Glyn		shot.	+-
190				Kacie	_		+-
191	1			Mel	-		+
192	Lash Consest Mall	24.0	44-	Tosh	-	A44	+
193	Loch Sunart Wall	21.9m	11c	Duncan	-	After a short break in Tobormoray we went out to a sheer wall at the entrance to loch Sunart. Kelpy at top of wall	+
194	1			Lu		but most life at around the 16m level. Good dive for maintaining neutral bouyancy. Wall initially sheer but then we	+
195				Chris	-	crossed a sandy slope where some saw an octopus and Squat Lobsters. Wall resumed dropping into darkness	+
196 197	1			Chris W		and we gently finned along passing patches covered in Red Fingers, Peacock Worms, Branched Antenna Hydroids and Sea Loch Anemones.I also noticed isolated Northern Sea Fans and a Red Cushion Star. Quite a lot of Moon	+
198	1			Sandy		Jellyfish and all along the wall were Devonshire Cup Corals but not much in the way of sponges. A very scenic wall	+
199				Annette Glyn		with a different mix of creatures to what we get in our local waters.	+
200				Kacie		with a different fillx of creatures to what we get in our local waters.	+
201				Mel	1		+
202				Tosh			+
	Ard Na Cuile Wall, F. Lorne	25m	11c	Mel	СН	Sea like glass this morning as we headed south to a wall opposite the tip of Kerrera Island. Not as sheer as the wall	+-
204	Alu Na Culle Wall, F. Loille	23111	116	Tosh	СП	yesterday but still very scenic. All the kelp in first 10m heavily covered in Kelp Fir and lots of Squat Lobsters in the	+
205		17m		Sandy		boulder slope at 20m. Viz a good 6m. At the 25m level the wall became sheer and was covered in Red and Dead	+
206		17111		Annette		Mens Fingers as well as Plumose Anemones. A few more fish around on this dive particularly some large Cuckoo	+
207		17m		Glyn	1	Wrasse	+
208				Kacie	1	- The state of the	+
209		30m		Duncan	<u> </u>		+
210		30111		Lu			+

212		20111		Chris			+
213	S.S.Meldon, Loch Buie	13.9m	11c	Glyn		After a two hour sail down the Firth of Lorne we put in to Loch Buie where the S.S.Meldon lies. We have never dived	+
214	C.C.Moldon, Econ Balo	10.0111		Kacie		this wreck before which lies close to shore in around 12m. Had to re shot it as a creel containing a four foot conger	1
215				Sandy		had been tied to the bouy. Carefully released the conger and the few crabs in the creel before diving. The wreck is	$\top$
216	İ			Annette		covered in kelp because of the depth but it was a big steamship probably larger than the Shuna. The stern post,	1
217	İ			Duncan	1	rudder and enormous prop are quite scenic and it is easy to navigate as the lower parts of the hullare intact. We	1
218	İ			Lu		followed the prop shaft along the hull noting the thrust bearings but could find no sign of the engine when it stopped.	1
219				Chris		The enormous Glasgow pattern boiler was easily seen ahead of us though so the engine must have been salvaged.	
220				Chris W		Past the boiler there were 7 or 8 vertical posts rising up which may have held the bridge superstructure or were	
221				Mel		derricks. Finally the bow section was a little away from the rest of the vessel. Good viz because of the sandy sea	
222				Tosh		bed and a large number of 3ft pollock living on the wreck.	
	Screens Rocks	15.9m	15c	Chris	СН	Stbd. engine would not start so just went out to Screens first. Hit it on slack and had excellent viz of possibly 8m	AP
224				Lu		Shoals of Pollock of the rocy pinnacles and plenty of assorted wrasse swimming in the gulleys. Lu captured	
225				Derek		some good photos, (see Facebook page), of various nudibranchs even though her camera flooded. Found an	
226				Chris W		enormous crab which was one of the biggest I have seen in these waters.	
227				Paul		**	
228				lan			T
229	Port Yerrock	14m	15c	Chris		Moved on to second site at slow speed. Again excellent viz and we finned into the slight current to leave any kicked	T
230				Lu		up silt behind us. Was surprised to see Sea Lemons everywhere and it appeared that they were spawning and	T
231				Derek		laying egg casings. Again lots of good photos of small critters. This rather silty site is proving to be a gem with	
232				Chris W		remains from the Mulberry Harbour tests, and abundance of sea life and it is the only sheltered site from a SE wind	
233				Paul			
234				lan			
235 04/07/2021	Port Yerrock	18.3m	16c	Glyn	СН	Returned to Port Yerrock because of wind and it was a good site for Stephen's first sea dive. Surprisingly no sign	CH
236				Elizabeth		of all the Sea Lemons but we stayed shallow and showed Stephen the variety of sea creatures. Before setting out	
237		6m		Chris		checked engine and the fault seems to lie with the fuel pump.	
238				Stephen			
239 09/07/2021	Great Ouse	28.3m	14c	Chris	CH	Sea calm so decided to run out to the Ouse. We were diving it over HW on a mid range tide but had to dive in two	AP
240				Paul		waves. Line tangled around my tank as I hooked shot into wreck so waited watching fish for paul who was following	
241				Derek		to disentangle me. Viz a good 8m and wreck was teeming with fish and big lobsters and congers. Had to go into	
242				lan		deco to get 30 min dive.	Ļ
243	Stank	17.5m	15c	Chris	<u> </u>	Paul and I tried Stank to try to recover lost shot. Too many weeds though. Swam out over kelp to reefs but met	_
244		ļ		Paul	<u> </u>	strong tidal stream and reduced viz. Ended up in a fast drift	+
245	Morrach Shore	14m		Derek	<u> </u>	Found there was a gentle inshore back eddy on this shore despite strong tidal run in opposite direction off shore.	+
246	ļ	ļ		lan	<u> </u>	Nice scenic site with lots of big crabs and lobsters	4
	Great Ouse	28.7m	14c	Glyn	CH	Returned to the Ouse in lain's boat. Worked out slack fell 40mins before HW, so waited on site. Glyn shotted wreck	RL
248				Mel	_	but still had quite a pull down to it, using up a lot of air. Again good viz and lots of sea life. Saw a seal on surface	4
249		<u> </u>		Chris	<u> </u>	but he didn't visit us on wreck. Again returned to Morrach shore. Found a 5m wall below kelp line running along	_
250		L		Russ	<u> </u>	shore covered in life. We drifted along this slowly moving back towards the Isle. Quite a few nudibranchs and one	+
251	Morrach Shore	12m	15c	Mel	<b>├</b>	patch covered in Candy Striped Flatworms. Stephen did well on only his second dive and had better bouyancy.	+
252	1	1		Darren	<u> </u>		+

284					Tosh			
285 286			-		Elizabeth Ian			+-
287	01/08/2021	Dykefoot > SE	14.3m	17c	Russ	СН	Adverse winds meant that we could not get out to the planned Riverside so went for a scenic drift in the shelter of	СН
288					Kacie		Luce Bay. Neap tides meant that the drift was possible at this state of tide, but still a fast drift coming up in the choppy	
289					Margaret	-	water around Ducker Rock. Viz was excellent at at least 8m	_
290 291					Chris Frank	-		+
292	02/08/2021	ADC 527	36.6m	17c	Chris	СН	Went with a full boat just ahead of forecast wind. Dived 1.5 hrs before LW on good Neap Tide and had a long slack	AP
293					Tosh		Shot landed near stern and viz had to be about 10m. So many fish was like diving in an aquarium. Toured whole	
294 295					Duncan Lu		wreck with Tosh and found a spare prop stowed in the rear port compartment. Went out from wreck at bow to	+
295					Russ		inspect a mound but was only rocks not ammo. Ruturning could see the length of the starboard side rising up 3m above seabed. Probably best dive of year. Duncan and Lu got good footage and photos, (see Facebook page)	+
297					Margaret			
298				<u> </u>	Derek	<u> </u>		
299 300		Port Yerrock	14.9m	17c	Margaret Derek		Second very scenic dive in Port Yerrock in shelter of Cairn Head. Found biggest lobster I have ever seen in space under a Mulberry mooring block and another trapped in a large steel cylinder. It had entered and grown inside it.	+
301					Russ		Broke open the small hole so that it could get out. Lots of Sea lemons aroung in the area where we were. Again	+
302					Duncan		excellent viz of around 8m. Recovered anchor and chain for John while tosh and I were waiting.	
303			<u> </u>		Lu			4
304 305					Chris Tosh			+
306	03/08/2021	S.S.Jasper	14.1m	17c	Margaret	СН	Quick run up to the Jasper. Buoy was just floating which made things easy. Added more to line for HW dives.	RL
307					Barry S		Qiute silty on wreck but lots of big Pollock in the hold.	
308			ļ		Chris	<u> </u>		+
309 310		Port Yerrock	14.2m		Margaret Barry S		Second dive same as yesterday in Port Yerrock	+-
311	07/08/2021	Stank	19.2m	17c	Margaret	СН	Tried Cairn Head but nil viz after rains. Hit Luce Bay at HW on mid range tide and found clearer water. No real current	СН
312					Tosh			
313	40/00/0004	0.1.11.1	40.0		Darren	011		011
314 315	13/08/2021	Cairn Head	19.8m	17c	Glyn Annette	СН	Strongish westerlies but went to shelter of Cairn Head. Viz was much better than anticipated at 5m. Lots of critters around and all had a good dive. Sandy took Caroline in for her final training dive and is happy to pass her	СН
316			16.2m		Sandy		as an Ocean Diver	1
317					Caroline			1
318 319	19/08/2021	Great Ouse	25.1m	17c	Chris Richard (V)	CH	Took advantage of calm seas to go out to the Ouse but on a spring tide. Just managed to dive it in two waves, and were treated to a dive in an aquarium. Shoals of fish everywhere and good 8m viz. One of best dives this year	GM
320					Becky (V)		and our visitors saw our diving at its best. On way in encountered a shoal of 30 to 40 dolphins who decided to	+
321					Glyn		come and play with us, riding the bow wave. Best dolphin encounter I have see here and fortunately we were able	
322					Lu		to get footage of it (see facebook page)	
323 324		S.S.Woodburn			Chris Richard (V)		Second dive o Woodburn was a bit tame after this but still good viz and a guided tour of the wreck	+
325					Becky (V)			+
326					Lu			
327	20/08/2021	Port Yerrock	16m	17c	Glyn	СН		GM
328 329					Richard (V) Becky (V)		dive. Currents dragged us out to the choppy water at Cairn Head which made getting on board a bit hairy. Came to harbour through an increasingly rough sea. Just got dive in in time	+
330					Chris		to harbour unought art moreasingly rought sea, bust got the minimum.	T
331					Lu			
332					lan			
333 334	22/08/2021	S.S.Riverside	26.5m	17c	Sandy Annette	СН	Tried the Riverside but had to shot it as the buoy could not be found. I found it eventually about 1/2m below surface.  need to go out at low water to add and extension buoy. Viz about 4m but all enjoyed dive and Duncan took some	СН
335					Duncan		good footage as he did on second dive at Slockenglass where viz was better despite spring tides. Annette's	
336		Slockenglass	17.8m		Sandy		grandson Callum came with us and drove the boat.	
337 338					Annette Duncan			+
339	23/08/2021	S.S.Jasper	18.2m	17c	Sandy	СН	Full boat and had to change plans from Kelvinside when Stephen turned up unexpectedly. Useful though as it	VRM
340					Annette		gave me the chance to do the last two dive exercises with him. Jasper a bit murkywith silt kicked up so Stephen	
341					Barry S		did well doing exercises sitting on the deck in this. Beautiful day but burning hot as we went back to Slockenglass	
342 343			+	<del>                                     </del>	Jani Chris	<u> </u>	Stephen did final exercise leading on a drift dive ( not that difficult as you go where it takes you!) Good viz but	+
343			1		Stephen		a faster drift than yesterday. Happy to sign him off as an Ocean Diver at end of dive. Vikki volunteered to skipper today and did an excellent job in retrieving divers at end of drift	+-
345		Slockenglass	17.1m		Sandy		,
